In re Application of :  
Goel, et al. :  
Application No. 10/675,140 : ON APPLICATION FOR  
Filed: September 30, 2003 : PATENT TERM ADJUSTMENT  
Atty Docket No. 0492311-0482 :

This is in response to the "APPLICATION FOR PATENT TERM ADJUSTMENT UNDER 37 C.F.R. § 1.705(b)" filed September 10, 2009. Applicants submit that the patent term adjustment to be indicated on the patent is fifty-six (56) days, not zero (0) days as calculated by the Office as of the mailing of the initial determination of patent term adjustment. Applicants request this correction, in part, on the basis that the Office will take in excess of three years to issue this patent.

As the instant application for patent term adjustment requests reconsideration of the patent term adjustment as it relates to the Office's failure to issue the patent within 3 years of the filing date, the application for patent term adjustment under 37 CFR 1.705(b) is **DISMISSED as PREMATURE.**

Knowledge of the actual date the patent issues is required to calculate the amount, if any, of additional patent term patentee is entitled to for Office failure to issue the patent within 3 years. See § 1.702(b). (This is true even where a request for continued examination (RCE) was filed). The computer will not undertake the § 1.702(b) calculation until the actual date of issuance of the patent has been determined. Likewise, the computer will not calculate any further Office delay under § 1.702(a)(4) or applicant delay under § 1.704(c)(10) until the actual date of issuance of the patent has been determined. As such, the Office can not make a determination on the correctness of the patent term adjustment until the patent has issued.

Requesting reconsideration of the patent term adjustment to be indicated on the patent under 37 CFR 1.705(b) based on the

initial determination of patent term adjustment and a projected issuance date of the patent (or even the filing date of the request for continued examination) is premature. Accordingly, it is appropriate to dismiss as premature such a request.

Rather than file an application for patent term adjustment under 37 CFR 1.705(b) contesting the 37 CFR 1.702(b) calculation at the time of the mailing of the notice of allowance, applicants are advised that they may wait until the time of the issuance of the patent and file a request for reconsideration of the patent term adjustment pursuant to 37 CFR 1.705(d). As the USPTO does not calculate the amount of time earned pursuant to 37 CFR 1.702(b) until the time of the issuance of the patent, the Office will consider any request for reconsideration of the patent term adjustment due to an error in the calculation of 37 CFR 1.702(b) to be timely if the request for reconsideration is filed within two months of the issuance of the patent.

However, as to all other bases for contesting the initial determination of patent term adjustment received with the notice of allowance, applicants must timely file an application for patent term adjustment prior to the payment of the issue fee<sup>1</sup>.

It is noted that any period of adjustment will be entered in light of 35 U.S.C. 154(B) GUARANTEE OF NO MORE THAN 3-YEAR APPLICATION PENDENCY, which provides that:

Subject to the limitations under paragraph (2), if the issue of an original patent is delayed due to the failure of the United States Patent and Trademark Office to issue a patent within 3 years after the actual filing date of the application in the United States, not including -

---

<sup>1</sup> For example, if applicant disputes both the calculation of patent term adjustment under 37 CFR 1.702(a)(1) for Office failure to mail a first Office action or notice of allowance not later than fourteen months after the date on which the application was filed and under 37 CFR 1.702(b) for Office failure to issue a patent within three years of the actual filing date of the application, then applicant must still timely file an application for patent term adjustment prior to the payment of the issue fee to contest the calculation of Office delay in issuing a first Office action or notice of allowance. See 37 CFR 1.705(b) and 35 U.S.C. 154(b)(3)(B). A dispute as to the calculation of the §1.702(a)(1) period raised on request for reconsideration of patent term adjustment under 37 CFR 1.705(d) will be dismissed as untimely filed.

(i) any time consumed by continued examination of the application requested by the applicant under section 132(b);

It is further noted that a Request for Continued Examination (RCE) was filed in this application on July 11, 2007.

To the extent that applicants otherwise requests reconsideration of the patent term adjustment at the time of the mailing of the notice of allowance, the application for patent term adjustment is **granted to the extent indicated herein.**

The Office has updated the PALM and PAIR screens to reflect that the Patent Term Adjustment (PTA) determination at the time of mailing of the Notice of Allowance is zero (0) days. A copy of the updated PALM screen, showing the corrected determination, is enclosed.

On June 12, 2009, the Office mailed the Determination of Patent Term Adjustment under 35 U.S.C. 154(b) in the above-identified application. The Notice stated that the patent term adjustment to date is 0 days. Applicants timely filed the instant application for patent term adjustment<sup>2</sup>.

Applicants dispute the reduction to the patent term adjustment of 237 days entered pursuant to 37 CFR 1.704(b) for failure to respond to a notice purportedly mailed December 24, 2003. Specifically, applicants states that:

The second delay with which Applicants take exception is the Applicant delay of 237 days shown extending from December 24, 2003 to November 16, 2004. There is no record of a Notice being mailed to Applicants on December 24, 2003, in the file history. The Notice was mailed November 17, 2004 to which Applicant timely responded. Applicants request that the delay of 237 days be cancelled for lack of bases in the prosecution history.

*Excerpt taken from "Application for Patent Term Adjustment under 37 C.F.R. § 1.705(b)", filed September 10, 2009, p. 2.*

---

<sup>2</sup> The issue fee was paid on September 11, 2009. Accordingly, applicant timely filed the instant request for reconsideration of the patent term adjustment pursuant to 37 CFR 1.704(b) prior to the payment of the fee set forth in 37 CFR 1.18(e).

Applicants' argument has been considered and is well taken. A review of the Image File Wrapper (IFW) history for this application does not reveal a notice as being mailed to applicants on December 24, 2003. Thus, in this instance, applicants did not fail to engage in reasonable efforts to conclude processing such that entry of a reduction to the patent term adjustment under 37 CFR 1.704(b) would be warranted. Accordingly, the period of reduction of 237 days is being removed.

The Office acknowledges submission of the \$200.00 fee set forth in 37 CFR 1.18(e) for consideration of the application for patent term adjustment under 37 CFR 1.705(b).

The application is being forwarded to the Office of Data Management for issuance of the patent. The patent term adjustment indicated on the patent (as shown on the Issue Notification mailed about three weeks prior to the patent issuance) will include any additional adjustment accrued both for Office delay in issuing the patent more than four months after payment of the issue fee and satisfaction of all outstanding requirements, and for the Office taking in excess of three years to issue the patent (to the extent that the three-year period does not overlap with periods already accorded).

Telephone inquiries specific to this decision should be directed to Kenya A. McLaughlin, Petitions Attorney, at (571) 272-3222.
